

BRAZILIAN BID FOR 2010 ISRA - WORLDS

Red Fox Raceway is back!!!

We have been participating in international events for the last 24 years, and we are counting on the experience gained in having organized thrice the “World Championship of Wing Car”, in addition to several Brazilian and South-American championships, and also the “2009 Wing Car Worlds”, to ask for the opportunity to introduce South America to the grandeur of this Scale Racing event, as well as to promote the Hobby-Sport and convert new racers.

- **Location**

We are truly pleased to offer our facilities to host this prestigious event. We have our own facilities located only 15 km away from the São Paulo International Airport, and our greatest desire is to offer the best, as never seen before in Slot Car events.

There is also the possibility to run the event at a hotel (we are presently looking into it).

- **Our Raceway**

Our 350 square-metre facility (14 m x 25 m) will be wholly dedicated to the event. We will disassemble our (Gary Gending) King track, so as to provide more space for the Pit area and be able to house all participants.

- **Power Outlets**

- 110 volts
- 220 volts

The Pit area will supply both voltages to all pilots.

- **Accommodation**

There are 2 good hotels within a 5 km radius from our raceway. They can provide comfort to all participants and their families.

There is also a 5-star Resort located 35 km away from our raceway, easily reached by a low traffic road.

- **Track**

We will contact the best track builders and slot racers to decide on the right design to be used.

We will make every effort to ensure that the best available equipment is used, and to render this event memorable.

Since we own the venue of this commercial raceway, it is possible for us to welcome all to practice on the track during the final 30 days prior to the event. Tracktime is free. Should the competition take place at a hotel or other venue, the track will be dismantled ten days before the event.

We are inviting the celebrated Andy Wasserman to act as Race Controller.

- **Food & Beverage**

Our food and beverage services will be available every day, during the whole period when the track is open. We will also provide Brazilian coffee for free.

- **Sponsorship**

We will search for extra sponsorship when our bid is accepted. Presently we have as sponsors Sport News Brasil and MTV, as well as local newspapers.
